NICHOLALALA

You aren't that scared of ghosts and things are you?

You freaked me out at first remember?

But you weren't terrified...
...and we became friends

When Koreans even just sense me, they are terrified

I'm not Korean and I didn't grow up with stories of gwishin like you

What about in your own country?
Do you get scared of ghosts?

Oh yeah... this one time I went to this place convicts had been. So many scary ghosts...

But there aren't those types of ghosts here, only Korean ghosts, I like Korean ghosts... I didn't grow up being scared of you...

Well, that's why I was asking...
...there is a foreign ghost here.

WHAT?!

How is that possible?

He died about 300 years ago

In that time when a foreigner was shipwrecked here... they were never allowed to leave Korea

So they died here...
GASP!

To be continued
